Rumor of Peace in Which a Peace Ship Has No Part Is Floating in Baseball C re.

The Federal League has chosen the site for the New York club's grounds in this city, but in the opinion of a ball the choice was not the wisent. The grounds are centrally located, to be sure, and if the team plays winning ball will be patronized. There can be little doubt of this, for the New Yora fan is of the type that wants a winner, regardless of

and only a winner, regardless of league. Liberal patronage and biz league prices will be imperative, for the promoters have strapped a slaggering load on their shoulders.

It has been learned and written that the original outlay of money approximated \$1,500,000. This is only the beginning the opening entry, so to smeat ginning, the opening entry, so to speak in the journal of expense. Sir: Now that the hunt for a new Yale coach is desperately on, may I ask if any one has considered calling in perately on, may I ask if any one has considered calling in that brilliant rush organizer, our old friend Mackensen? Sir: Just what do you make of this: Percy Haughton—Haughty Person?

Tom Shevlin was among those, etc., who saw the Army dispose of the Navy in four moist periods.
